Integration of ABCA Partners Into the Joint Training Enterprise (Updated)

Issue 08-018: Coordination and synchronization of JTEN services and LVC training enhancements for exercises conducted by ABCA partner nations and combatant commands/Services.

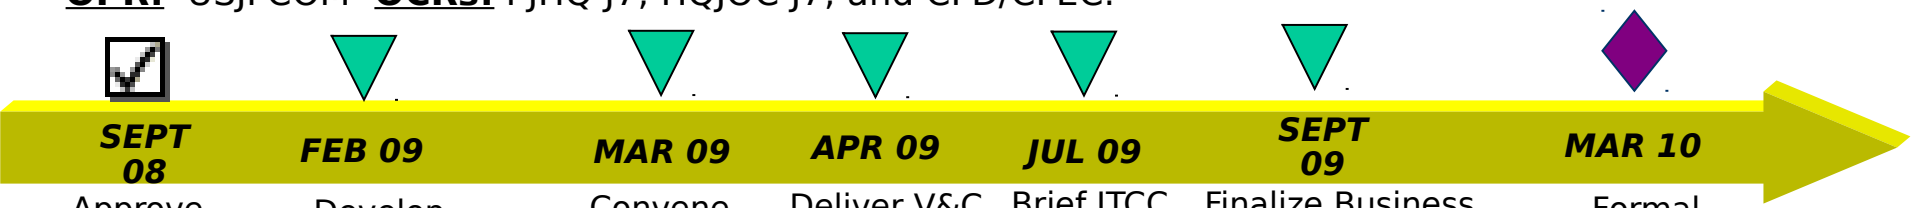
Discussion: JTEN currently has temporary connections to like networks in Australia and the United Kingdom, with a connection to Canada on the horizon. No formal procedure exists for scheduling the use of the JTEN by ABCA partners or combatant commands/Services for the scheduling and provisioning of distributed training assets (i.e. Virtual and Constructive training enablers).

Endstate: Development of a formal coordination process, business rules and/or other documents as necessary for ABCA partners and combatant commands/Services that outlines the process for scheduling and coordinating JTEN utilization and LVC training enhancements for ABCA/combatant commands/Services pre-deployment training for OIF/OEF.

POA&M: JWFC to be given the lead for:

- Development of a catalog of available ABCA virtual and constructive training capabilities
- Establishment of a scheduling process for the JTEN and V&C assets
- Develop business rules formalizing this process

OPR: USJFCOM **OCRs:** PJHQ J7, HQJOC J7, and CFD/CFEC.



Dissection of the Issue

- Issue:
  - Coordination & synchronization of JTEN services & LVC training enhancements for
  - ABCA/COCOM/Services exercises…pre-deployment training for OIF/OEF
  - No formal procedures to schedule coalition use of JTEN
  - No formal process to integrate ABCA into scheduled events, inserting new events, or schedule use of distributed training LVC assets/capabilities
- Desired End State:
  - Formal coordination process
  - Business rules
  - Documentation
  - Outlines process for scheduling & coordinating JTEN and LVC asset use
- JWFC Lead for:
  - Development of catalog of available ABCA LVC training assets
  - Establishment of Scheduling Process for ABCA V&C assets
  - Development of formal Business Rules

Deliverables

- **Formal coordination & scheduling process for JTEN & ABCA LVC asset use**
  - **ACTION**: JWFC TD-Programs provide JTCP process as one venue (CDR Kesselring)
  - **ACTION**: ABCA provide process for event scheduling, use of training networks and assets for Coalition Partners integration. (Lanny White)
- **Formal ABCA Training Business Rules**
  - **ACTION**: JWFC benchmark and provide JCTC Business Rules as starting point (Steve Kostoff)
    - Ensure funding and capacity constraints are addressed
- **Catalog of available ABCA V&C training assets**
  - **ACTION**: ABCA each provide catalog of all available training assets & coordination POCs
    - **US ACTION**: TD provide first draft of US catalog of JNTC Certified Sites (Dave Hill)
- **Documented Network Architecture and CONOPS**
  - **ACTION**: JWFC provide status of ABCA Training Network design concept (Steve Kostoff)
  - **ACTION**: JWFC provide draft ABCA Training Network CONOPS (Steve Kostoff)

WJTSC 09-1 Plan of Action

- Ensure Issue dissection correct & complete
- Discuss deliverables, action officers, and suspenses
  - Brief working group on issue slide changes since WJTSC 08-2 (e.g., timeline slip)
  - Discuss whether or not to include Live training capabilities/facilities in the catalog
  - Discuss capturing essence of funding & capacity constraints in the business rules
  - Do we introduce to the Plenary the concept of having a “ABCA Desk Officer” at JWFC?
- Provide update on technical enablers
- Update Issue Slide and develop any required briefing slides for the Plenary
  - Ensure slide changes are captured

WJTSC 09-1 Engagements

- Tues, 24 Mar, 1500-1600, Joint Training Enterprise WG, Gold Camp Room
  - Business Rules, Catalog, Network Architecture & CONOPS
- Tues/Wed, 24/25 Mar, TBD Time, USJFCOM Exercise Support WG, Centennial Room
  - Event Scheduling, Resource scheduling
  - Venues: JTCP/JTCC, WJTSC
